Course Number and Section:

MOS

2235B 550

Instructor Name(s): Dr. Aria Teimourzadeh

Instructor Email(s): ateimour@uwo.ca

Disclaimer: Information in the brief course outline is subject to change. The syllabus posted on OWL is the official and authoritative source of information for the course.

Course Description:

Organizations increasingly rely on data and sophisticated analytical tools to make effective, strategic decisions and thus look for workers with a data-driven mindset and business analytics skills. This course will enable you to develop an understanding of the vast amount of data that is available to organizations, and teach you the skills to access, prepare, analyze and visualize this data to support decision-making, solve business problems, and remain competitive. This course is heavily based on hands-on activities, providing you with practice implementing data analytic techniques and using tools for business intelligence. The focus is on techniques and tools that can be used by individuals in an organization to gain insight into complex business problems. The techniques that will be used are extended data analysis and data visualization. These analytics techniques will be supported with applications such as MS Excel, Power BI and Tableau.

Learning Outcomes:

| |
|--|
| Recognize business problems that can be addressed with Business Analytics tools |
| Develop strong modeling skills in Excel and Power BI |
| Learn about data visualization concepts and select appropriate data visualization techniques |
| Apply tools to visualize data, including Tableau, Excel and Power BI |
