Disclaimer: Information in the brief course outline is subject to change. The syllabus posted on OWL is the official and authoritative source of information for the course.

Course Description:

This course examines the form and function of financial markets and how financial managers use markets to accomplish strategic corporate objectives. Focus is placed on the behavior of major financial institutions, their role in the intermediation process as suppliers of funds, the form and function of specific capital markets.

Learning Outcomes:

1. Offer a real-world demonstrable examination into the functions performed within an investment bank
2. Understand the role, responsibility, and objective of all participants in the capital markets
3. Examining the critical role of banks and non-bank financial intermediaries in the process of economic development and growth

Textbooks and Course Materials:

No Textbook. All materials will be provided in class.
