Course Description:

This course provides a broad overview of the principles, theories, and praxis of entrepreneurship, together with an understanding of the key tasks, skills, and attitudes required. It focuses on the logic of effectuation that serves entrepreneurs in the processes of opportunity identification and new venture creation based on existing resources.

Learning Outcomes:

- collaborate with others effectively and constructively moving successfully towards a shared goal in group assignments
- assess their current mindset and develop habits that turn adversity into opportunity expressing them in both written and oral forms
- display a personal commitment to growth and learning in both written and oral forms
- manage their strong impulses and feelings in class and team interactions
- nurture self-efficacy and self-advocacy expressing them in both written and oral forms
- identify problems and opportunities in new and existing ventures expressing them in online and class discussions and video documentary
- identify decision making processes that entrepreneurs make on a daily basis expressing them in written, oral and video forms
- draw conclusions about entrepreneurial decision making based on observation and discussion expressing them in oral, written and video forms
- evaluate entrepreneurial opportunities by applying the principles of effectuation
- communicate their ideas effectively in both online and class discussions
- identify their personal purpose expressing them in both online and class discussions
