

Huron  
UNIVERSITY

LEADERS *with heart*

VIEWBOOK | 2025

*“Huron University is like no other post-secondary institution that you will ever encounter. It’s a bold claim.*

*At Huron, our goal is not just to provide you with an excellent educational experience. We certainly do that, but that’s only part of the story. The other part is that we want to challenge you, to encourage you to become a “Leader with Heart.” What do we mean by that? Simply this: the education that you receive at Huron cannot just be all about you, as if the rest of the world does not exist. We want you to be able to realize your own personal goals and dreams for sure. But, we also want you to look outside your sphere of influence and see a world that needs you and needs your contributions.*

*I personally believe that we are happier people when we help others. Making the world better is thus a win/win. So, at Huron, we want to equip you to become an agent of positive change in the communities we serve. Huron graduates are disproportionately likely to become leaders in society: in business, law, social enterprise, the arts, public policy and so on. That’s not accidental – we equip our students to lead.*

*If you are the kind of student who dreams big, who has personal goals and aspirations, but who also wants to make an impact on society, then Huron is the place for you. Please reach out to me directly or better yet come for a visit to campus if you’d like to chat about how you can contribute to Huron, and to the world beyond.”*

# THE HURON DISTINCTION

At Huron, we specialize in select programs, while intentionally limiting our enrollment to a set number of students. This allows us to nurture your unique vision and needs. We also provide individualized opportunities and elite connections, enabling you to enjoy a **meaningful education where you can distinguish yourself** from other university graduates.

## LARGER UNIVERSITIES

### 30 STUDENTS PER CLASS

- Highly interactive, discussion-based learning, with real-world application.
- Professors who mentor you, rather than lecture you.
- Case-method learning.

### CLASSROOM EXPERIENCE

### HUNDREDS OF STUDENTS PER CLASS

- Watch slideshows and memorize textbooks with minimal participation – an approach to learning that hasn't evolved in decades.

### GUARANTEED PAID INTERNSHIPS

- Starting in first year, you will have the opportunity to gain valuable real-world experience, develop a well-rounded skill set, and earn a competitive income.

### ACCESS TO INTERNSHIPS

### LIMITED INTERNSHIPS

- Competing with thousands of other students for limited opportunities makes it challenging for every student to access a meaningful internship opportunity.

### 1-ON-1 CONNECTIONS

- Quick access to twice the amount of personal academic, career, and wellness advisors (compared to national average) who know you on a first-name basis.
- Our tight-knit student body makes it easier to form meaningful connections.

### COMMUNITY, CARE & SUPPORT

### SUPPORT BOTTLENECK

- Too many students with too few advisors makes receiving adequate support a challenge.
- With hundreds of students in a class, it's hard to make connections.

# CELEBRATING OUR LEADERS *with heart*

For more than 160 years, Huron has prioritized ethical leadership, community engagement, and professional success. This means you will receive a well-rounded education that prepares you to make a positive impact in your chosen field and in the communities around you.

**Leadership with Heart** is a guiding philosophy that is demonstrated through the actions of our community. Students like Hiba are encouraged to engage in civic responsibility and compassion towards others in tandem with their academic journey and beyond.

## MEET HIBA SHAIKH ANSARI

Hiba has dedicated herself to making a difference. She collaborates with her peers through the Huron Housing Council, the World University Service of Canada club, and as a Student Opportunity Commissioner for the Huron University College Students' Council to advocate for students and amplify their voices. Her impact doesn't just stop on campus though; as part of the Huron U Pitch Competition, Hiba and her team were prize winners for their project "elleFlow," which confronts the systemic challenges of menstrual poverty and sustainability in India and provides solutions.

*"My work has allowed me to forge close connections, create meaningful change, and support my peers in ways that are incredibly rewarding. Through my involvement in various projects, leadership roles, and initiatives, I've learned that true influence is not quantified by the size of an institution, but by the depth and resonance of the contributions made by its community."*
