Course Description:

Course objective is to enable the student to prepare annual tax return for corporations, trusts and partnerships (taxable entities), understand the tax consequences of transaction between taxable entities and their shareholders/beneficiaries/partners and use of tax planning tools available to do the transactions between the taxable entities and their shareholders/beneficiaries/partners and in most tax efficient way.

Learning Outcomes:

- Calculate taxable income and taxes payable for corporations, trust and partners involved in partnerships net of relevant tax credits available to each taxable entity.
- Calculate the tax consequences of transactions between the corporations and their shareholders and advise clients on how to do these transactions in most tax efficient way.
- Using advance tax planning tools including but not limited to different roll overs to minimize immediate and future tax consequences for the client.
- Calculate the tax consequences for non-Canadian residents on Canadian source income and tax consequences for Canadian residents on foreign source income.
