MOS

3331A 551

Instructor Name(s): Hassan Zeineddine

Instructor Email(s): hzeined@uwo.ca

Disclaimer: Information in the brief course outline is subject to change. The syllabus posted on OWL is the official and authoritative source of information for the course.

Course Description:

This course brings all of the Project Management Institute (PMI) knowledge areas of project management together into a consolidated whole and provides the student an understanding of project management methodologies as well as the tools and techniques used to plan, execute and control various types of projects.

Learning Outcomes:

- Describe the evolution of the project-based organizational structure
- Describe the framework of a project-based workplace and its implications for other components of management (i.e., recruitment and selection, compensation, motivation, leadership, employee development, and career management, etc.)
- Use the lexicon and professional standards of project management as per the globally recognized Project Management Body of Knowledge (PMBOK)
- Apply the guidelines and procedures learned to a term-long project
- Apply knowledge of PM principles to understand real-world industries
- Work successfully in diverse project teams
