Instructor Email(s): afeher2@uwo.ca

Disclaimer: Information in the brief course outline is subject to change. The syllabus posted on OWL is the official and authoritative source of information for the course.

Course Description:

This course covers the history, methodology, and content of the study of personality and individual differences. Topics that will be covered in the course include an introduction to personality theories, an examination of frequently studied personality and individual difference variables, and a consideration of current personality research and assessment methods.

Learning Outcomes:

PERSONALITY THEORIES: By the end of this course students will be able to discuss, compare, and critically examine major personality theories and how they were developed, as well as how they are relevant to modern society and social concerns.

PERSONALITY TRAITS: By the end of this course students will understand and be able to compare and contrast commonly assessed personality traits and individual difference variables, and will also be able to discuss intrapersonal and interpersonal outcomes associated with these variables.

PERSONALITY RESEARCH: By the end of the course students will have a comprehensive understanding of how personality research in psychology is conducted, and be able to compare various personality assessment methods and personality-relevant research designs.

REAL WORLD APPLICATIONS: By the end of this course students will be able to understand how classroom material applies to real world outcomes and how classroom material connects to life experiences.
