

AT HOME OR WITHIN THE *heart* OF OUR CAMPUS, WE ARE HERE FOR YOU.

You've experienced the Huron difference – our promise to curating a university experience unlike any other by personalizing each and every program and service to align with your impressive goals.

Regardless of where we find ourselves in the coming weeks, we will maintain that commitment and provide you with the individualized holistic supports that simply aren't offered anywhere else.

Day or night, we will be here to support your best interests – regardless of whether you're across the street or the country.

NEAR OR FAR, HURON IS ADAPTING TO SERVE YOU BETTER.

We are expanding our student service hours to ensure our **Leaders with Heart**, from around-the-world, get to speak to our staff members – face to face.

During these online conversations, you will get to engage with the people who continue to be personally invested in your short- and long-term success.

That includes your:

- Academic Advisor who will help you choose and change your courses to ensure you're meeting your program requirements and preparing to successfully transition toward your post-Huron dream job or graduate school
- Student Engagement staff member who is going to tell you all about the events and activities you can take advantage of to remain connected with your peers, professors and school spirit
- Mentorship Lead who is actively working to connect you with our wildly impressive alumni who are eager to support your career via networking and internship opportunities
- Career Coordinator who will continue to keep you up-to-date about all the opportunities available to build your impressive portfolio, including virtual professional development workshops and chances to network with potential employers

DR. GEOFF READ

Provost & Dean of the Faculty of Arts and Social Science

DR. BARRY CRAIG

President of Huron

SINCE 1863, HURON HAS CULTIVATED A GLOBAL COMMUNITY – WITH CARE FOR ONE ANOTHER AT THE VERY HEART OF IT. JUST BECAUSE THE WORLD IS CHANGING, DOESN'T MEAN THAT HAS TO.

Whether it's your academic, mental or emotional well-being, we will continue to provide holistic supports to nurture your unique gifts.

Our Wellness House now resides both off and online. That means, if you're ever feeling overwhelmed – or just not quite yourself – you have seamless access to an emotional, mindfulness and spiritual support team.

These friendly (and highly knowledgeable) faces will always align with your wishes for confidentiality, while promoting your best-possible health and wellness outcomes in safe and sustainable ways.

We expect a lot from our students – within and beyond the classroom. But, we never expect you to go it alone.

Huron's Library & Learning Services team will meet you wherever your learning takes you this fall, be it on campus or online. We'll help connect you to the rich learning materials and one-on-one research, writing and communications support you'll need to thrive academically both in person and online. Visit us today! huronatwestern.ca/library

You deserve a superior education that develops you into the type of leader who will thrive, regardless of the challenges you're called to face.

No matter where this message finds you, we're going to deliver on the unique living and learning experiences that encourage our students to be Leaders with Heart.
